- >> The MULTI 200 are ranked using their M2K rating.
- >> IRC ranking groups will be defined using the TCC, as stated on each boat's IRC certificate. Insofar as possible, these groups will be formed to match the groups of the IRC-UNCL 2022 Crewed and double-handed Atlantic challenge and the UNCL Offshore Trophy 2022.
- >> OSIRIS Habitable ranking groups will be defined using the net handicap group (modifying article 2 of the Rules for OSIRIS Rankings in the 2022 OSIRIS Habitable Guide published by FFVoile), in compliance with the OSIRIS Habitable Identity Card unique to each boat.
- >> The JCH CLASSIC Yacht groups will depend on the rating group according to each boat's JCH certificate.

13. Rankings

13.1 the race will be scored using the low point system as described in appendix A of the RRS, after calculating compensated time (real time multiplied by the time/time rate) for the compensated time ranking groups.

For OSIRIS Habitable rankings, the CVL (Coefficient Vent Léger - Light Winds Coefficient) will not be taken into account.

13.2 There will be a ranking for each group.

A separate ranking for IRC double-handed boats will be made if at least 7 boats enter this category.

13.3 In addition to the rankings for each group, there will be additional rankings to award the following Trophies:
